DENEND CONSTELLATION -- SIRE OF LOT 1

There's no question about it. Denend Constellation is easily the most prepotent sire of really outstanding bulls ever to walk the pastures at Louada. None has ever left a group of sons of such uniform excellence, length and substance.

No bull living today combines a stronger outcross bloodline through a concentration of three of Scotland's most historic sires--Cruggleton Perfect, Cruggleton Willingdon and Calrossie Control. Today there is no doubt that Denend Constellation is the best-breeding son of Bapton Constructor. And, from his dam comes invigorating new outcross blood from William Garne's highly regarded Aldsworth Pure Gold family.

The first two sons of Denend Constellation sold in the 1966 sale at a \$3,100 average to Scofield Ranch, Austin, Tex., and to George Shaw, Trimble, Mo. And they were just a sample.

In 1967 Louada Proud Prince sold at \$2,450 to Roslyn Flett, Oakwood, Ont. Louada Standard Bearer brought \$4,100 on the bid of Larry Hanson, Columbia, S.D. And there was more to come!

Denend Constellation as a two-year-old

LOUADA ROTHES KING -- SIRE OF LOT 2 AND LOT 6

There can be no doubt that Louada Rothes King is one of the truly great stock bulls of the era. His overall conformation has won the praise of beef cattlemen everywhere. His sons have averaged more than \$4,000. His daughters assure the excellence of the Louada herd for years to come. Ten sold in the 1967 spring sale to average \$2,050 and included Canada's top-selling female of all time at \$6,700! His dam brought \$3,500 as a nine-year-old cow!

In 1965 a son topped the sale at \$17,200. His senior and junior gets-of-sire were All-Americans in both 1965 and 1966. He sired most of the best ten head groups at the 1965 and 1966 International Livestock Expositions and ten sons made up the 1963 best ten head there.

A daughter, Louada Judy Clara, was International supreme champion in 1966. Another daughter, Louada Princess Rosie, topped the 1967 October sale females before becoming grand champion at Timonium and reserve senior champion at the International. Another daughter, Louada Bright Princess, was 1968 International senior champion and All-American.

W L MARINE

We feel fortunate to have used Marine. A great son of the world Renown Louada Aristocrat, one of the best bulls that has been raised at Louada. Aristocrat was used in the great herd of Billy Anderson, where he sired some of Billys best show and sale cattle.

Marine sired some of the best milking and nurse cows in our herd. Marine sired us a champion 4-H calf, that later sold for 53¢ a pound.

FRALAWN GRENADIER: This Bull was bought from Louada Farms in October of '67, when he was a little over a year. He is by Denend Constellation, the Bull that weighs well over a ton and still going strong at Louada. Grenadier is a dark red bull on a great set of legs, and has good size. We have a full crop of calves from Grenadier and they look great. After he was bought, Louada showed him at the Canadian International where he won his class. He also showed at Chicago.

LEVELDALE CLARA 14th: This is one of the biggest Shorthorn cows of the Breed. She is a real producer. She was bought at a long price at the Leveldale sale in '67. She was bred to Remitale Captain Jim. She calved the 20th of March '68, with a roan heifer calf that really has size. She has a red heifer calf by side sired by Fralawn Grenadier that will be sold off. She is rebred to the same sire.

STANDARD GUARANTEE

Recommended by American Shorthorn Association

- A. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.
- B. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.
- C. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age, shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.
- D. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of a freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction to all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.
- E. In the event an animal is returned by the buyer to the seller as a non-breeder the buyer must furnish to the seller a veterinarian's certificate showing that his herd is healthy if such a certificate is required by the seller.
- F. All animals catalogued have been tested for T. B. and are clean, and have also passed a test for Brucellosis thirty days prior to the sale, or are accompanied by a Bangs Vaccination Certificate. Announcements will be made covering animals not clear from vaccination.
- G. Certificates of registry and transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females showing names and record numbers of sire and dam, as well as service date.
- H. All prospective buyers should check health requirements of their states. Health certificates will be provided with each lot sold.

WHY USE SHORTHORN BULLS?

John Catron, Camp Crook, South Dakota, turned a Shorthorn, a Polled Hereford, and an Angus bull with 120 cows. One hundred calves resulted. Catron did not guess — he weighed the calves.

THE BOX SCORE

Sire	No. Calves	Ave. Weaning Wt.	Total Lbs.
Shorthorn	47	330 lbs.	15,510
Hereford	34	306 lbs.	10,404
Angus	24	313 lbs.	7,512

John Catron, just like you, Mr. Cattleman, was interested in production of total pounds of quality meat. That's why he now is convinced of the advantage and reliability of Shorthorns. You, too, can harvest this kind of a crop by using Shorthorns.

It's been a good year for shorthorns and Polled Shorthorns and the outlook for 1969 is even better. Just look at the recent figures released by the American Shorthorn Ass'n. Registrations UP 10%. Transfers UP 7%. And, most important, new members UP 3%. Junior members UP about 500%!
